- Research Needs/Roadmapping
- Research Groups and Research Projects Database

Research Projects - Annex to Evidence for Energy and Climate Change Committee Inquiry into CCS

The Annex lists a total of 244 grants, of which approximately 20 are from EU funding sources, 11 from other international funding, 44 from industry/government sources and 13 from the UKCCSRC. Entries for 156 grants from Research Councils UK ending in 2009 or later are also included. The total investment in these RCUK projects is over £95M.
