

Delivering Cost Effective CCS in the 2020s: overview of possible Yorkshire-Humber development

Event location: Velocity 2, Velocity Village, Solly Street, Sheffield, S1 4DF

<http://velocity-village.co.uk/about-velocity-village/location/>

<http://www.q-park.co.uk/parking/sheffield/q-park-velocity> - car park under the building

Date: Friday, 15 April 2016

Start: 10.00 for 10.30

End: 15.30

Yorkshire/Humberside is potentially a major area for UK CCS deployment but currently there is less information available on what that deployment might now look like. This workshop will bring stakeholders together to discuss possible elements in a future regional CCS cluster. Other UK regions will be looked at in detail in future meetings.

Versions of the presentations and a Chatham House Rule summary of the discussion will be made publically available on the UKCCSRC web site.

Activities

(timing to be adjusted to suit the way the discussions develop, but with a hard stop at 15.30)

10.30 Start

1. Introduction

2. Den Gammer, ETI Information relevant to Yorkshire/Humberside cluster

3. James Watt, Amec Information relevant to Yorkshire/Humberside cluster

4. Dan Sadler, H21 Project Manager The Leeds H21 Project

5. Discussion/Q&A around 3 presentations with a focus on CO₂ sources, onshore infrastructure and storage

Lunch

6. Breakout into two sub-groups, 'North of the Humber' and 'South of the Humber', for cluster option discussions

7. Full group review of two options plus potential links to other CCS activities

15.30 End
