

UKCCSRC Spring 2022 Conference

The UK CCS Research Community Network+

April 2022 – September 2025

Jen Roberts

The UKCCSRC is supported by the
Engineering and Physical Sciences Research
Council as part of the Research Councils UK
Energy Programme

The logo for the Engineering and Physical Sciences Research Council (EPSRC). It consists of the acronym "EPSRC" in a large, bold, purple font, with a horizontal line above and below it. Below the acronym, the tagline "Pioneering research and skills" is written in a smaller, grey font.

Looking back: 2017 - 2022

Funding: £7.5M

Research:

35

- Core research, 3 flex-funding calls (24 projects) | Scientific Council Collaboration funds (9 projects)

157

- 157 research publications, 412 data entries (UKCCSRC Data Archive)

Network building and knowledge exchange

1,600

- 1,600 members, 2,900 Twitter followers

- 137 blogs

112

- 90 webinars, 7 conferences (incl. 1 international virtual conference), 8 ECR Away Days, 5 ECR-led Activities, 2 x research priority needs workshops
- 6 MOUs signed

140

Policy & practice:

- 92 working group/panel contributions, 34 advisory roles, 6 evidence for policy, 3 citation in policy documents, 1 x 18-part seminar series for BEIS
- 3 BAT reviews

Outcomes:

- A connected CCS community
- Enhanced CCS capacity
- Informed role of CCS for net zero
- Enabled £18.6M follow-on funding

Looking forward: 2022 - 2025

Funding: £2.2M

Activities:

- 3 flex-funding calls (£1M)
- ECR Away Days
- Monthly **webinars**
- Spring (Virtual – Int'l) and Autumn **Conferences** (F2F + virtual)
- Newsletters and blogs
- 'Research priority needs' workshops
- Policy response

Objectives:

To link research producers (research) and research users (CCS stakeholders) to:

- Inform CCS deployment for net zero using the best science available
- Deliver £1M flexible funding to develop new research and to enable follow-on funding
- Grow CCS capacity in people, infrastructure and institutions (double and widen our membership)
- Share knowledge via a connected inclusive and international CCS community
